PHOTO TIPS AT A GLANCE

THINK ABOUT LINES.

For instance, with the pictures below, your eye naturally follows the length of the wall, building, driveway, pathway, etc., drawing you into the picture.

IT'S ALL IN THE DETAILS.

Get a picture with the focal point showing the detail but use the lines of your subject to draw the eye into your composition (or frame).

BE CREATIVE.

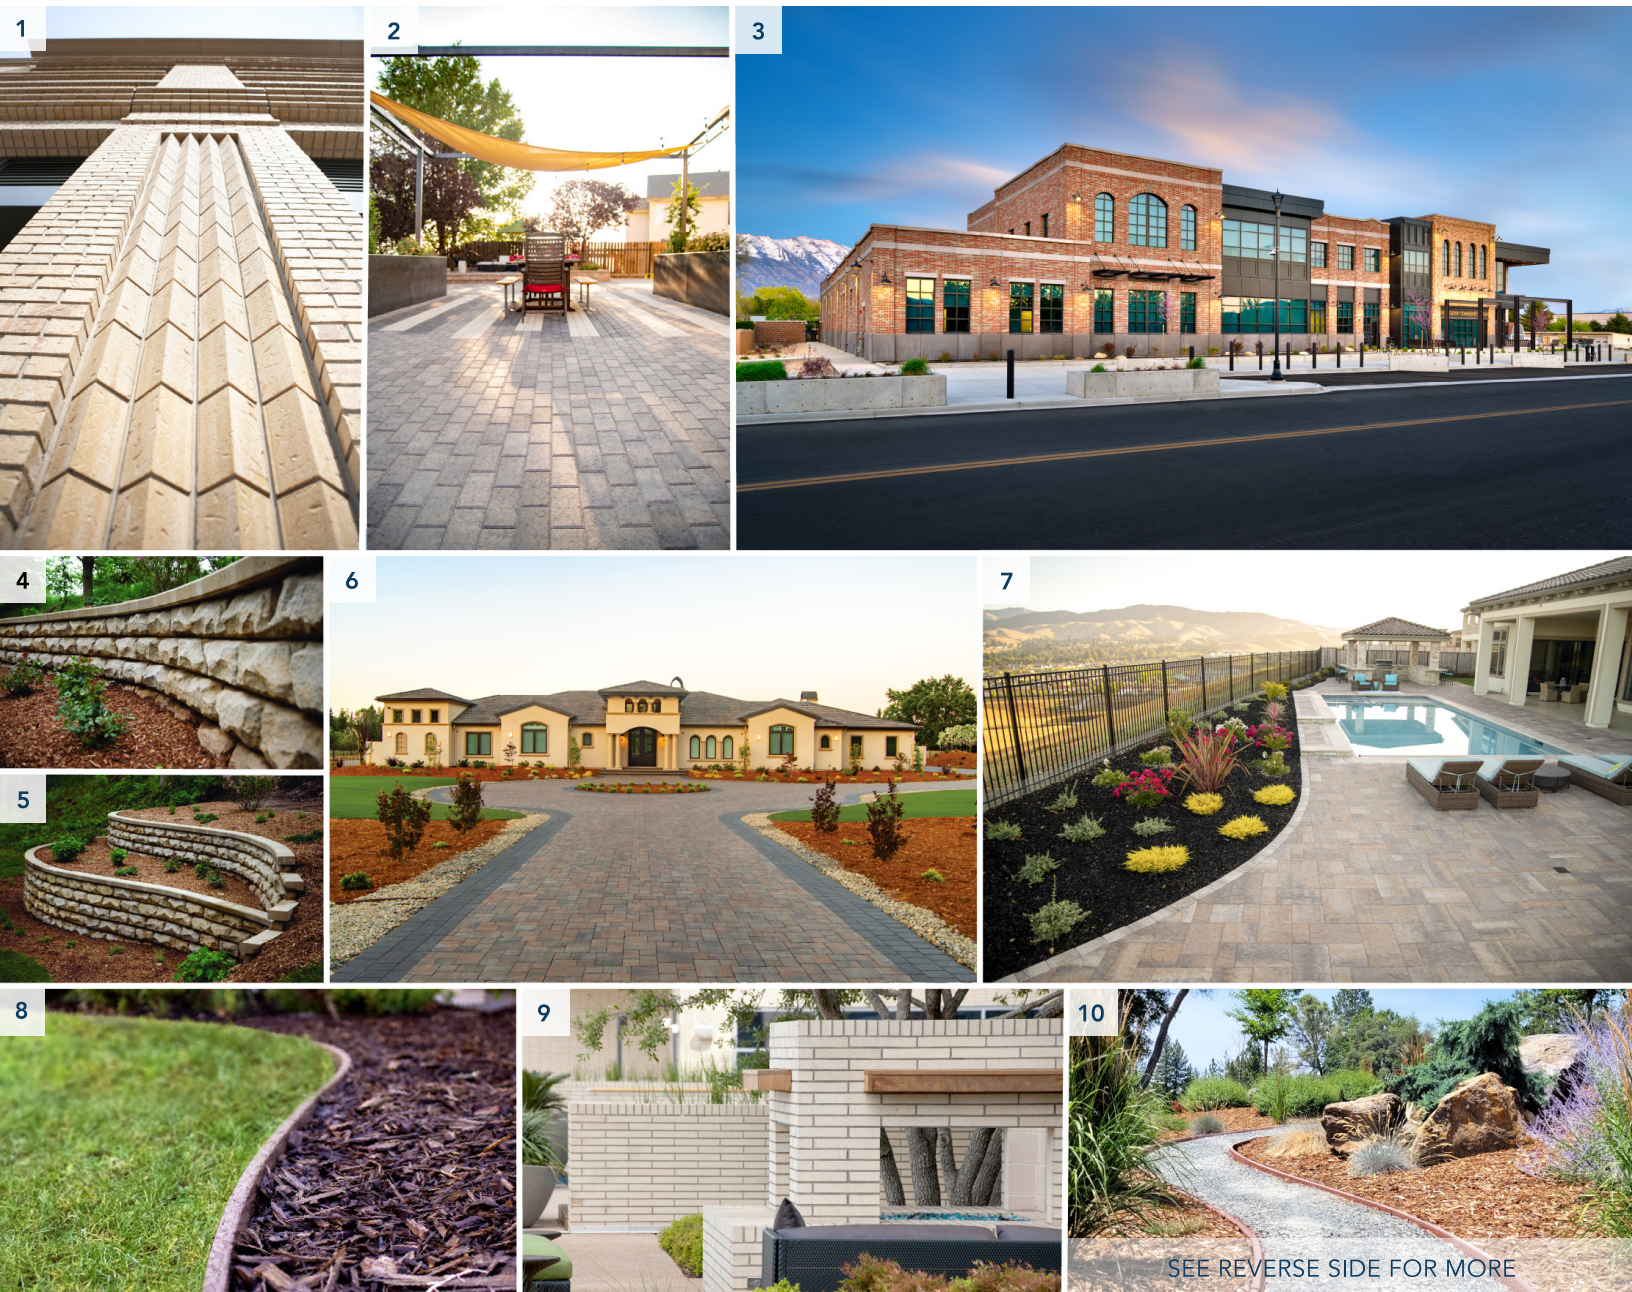

Try different angles. Get low, get close, back up, zoom out (SEE 4 & 5). Get shots at different distance and focal points. Take one from above looking down.

GLAMMED UP!

When possible, get pictures of projects that are complete with landscaping and/or outdoor furniture. Are there accent colors like flowers or outdoor furniture or a painted door? Incorporate them.
